QUALITY AND ENVIRONMENTAL POLICY

Edition: 7.0

Date: December/ 23

Page: 1 of 1

VS FOCUM focuses on researching, manufacturing, and marketing firefighting foam as well as conducting analyses of firefighting foam from fire protection installations.

The main goal of VS FOCUM is to provide customers with a firefighting foam that is suitable for the existing risk in terms of effectiveness and usability, ensuring compliance with the required performance standards over time. Additionally, the suitability can be evaluated through tests.

To achieve this, VS FOCUM:

- *Trains and informs its personnel in essential knowledge and provides the necessary resources.*
- *Ensures the quality and traceability of products and services throughout the process chain, continuous improvement, legal and regulatory requirements, and environmental performance.*
- *Advises customers on transitioning to fluorine-free foams, maintaining a strong commitment to environmental protection and pollution prevention.*
- *Raises staff awareness that the company's philosophy is linked to creating a reputation for products and services as pillars of a stable, viable, and environmentally sustainable future.*

VS FOCUM commits to:

Satisfying the needs of stakeholders and striving to improve the fulfillment of their expectations.

Collaborating with suppliers to achieve compliance with quality specifications and environmental commitments.

Promoting the implementation of environmental improvements in all processes, particularly in design, with defined objectives that contribute to reducing the environmental impact of our activities.

Furthermore, management declares the mandatory compliance with the Quality and Environmental Management System defined by the Quality and Environmental Management Manual, the achievement of objectives, and applicable requirements that must be assumed by all personnel according to their responsibilities.

The Manager delegates the implementation, development, and updating of the Quality and Environmental Management System to the Quality and Environmental Manager, granting them the authority, freedom, and necessary means to do so.
